P R O F I L E

Self-taught Frontend Developer with 4+ years of independent project experience and a BSc in Geology from the University of Lagos. I build clean, responsive web interfaces and bring domain knowledge in geoscience that most frontend developers don't have. Currently about to go for NYSC in Lagos State and I am open to opportunities in frontend development, upstream oil & gas, and the intersection of both.

T E C H N I C A L S K I L L S

Frontend
HTML & CSS
JavaScript (Vanilla ES6+)
Responsive Design
Git & GitHub
Vue 3

Geoscience
Petrographic Analysis
Reservoir Characterization
Python / R
SQL

S E L E C T E D P R O J E C T S

Uncrowned Kings Fan Site *uncrowndkings.netlify.app*
Kuroko no Basket fan site featuring per-character CSS-themed player dossier cards with floating SVG motifs. Demonstrates detailed UI work and the ability to execute a strong visual concept from scratch.
Stack: HTML, CSS, JavaScript

GlyTimes *glytimescl.netlify.app*
Clean, responsive news digest web app with curated content and a smooth reading interface. One of my most fully-featured builds; covers layout, readability, and content organisation at scale.
Stack: HTML, CSS, JavaScript

COULi Bakery *coulibakery2.netlify.app*
Mobile-first product landing page built for a local bakery. Focused on brand identity, conversion-oriented layout, and warm visual design.
Stack: HTML, CSS, JavaScript

MacGyver Quiz *macgyverqz.netlify.app*

Interactive multiple-choice quiz app covering all 5 seasons of the MacGyver reboot. Features progress tracking, score feedback, and a full results breakdown, built entirely in vanilla JS, no libraries.
Stack: HTML, CSS, Vanilla JavaScript

E D U C A T I O N

BSc Geology - University of Lagos *2019 – 2025*

E X P E R I E N C E

Intern - Lagos State Ministry of Energy & Mineral Resources *2024*
Solid Minerals Department, Lagos, Nigeria

- Joined the monitoring team to visit dredging sites all around Lagos State
- Conducted energy audits with the Lagos State Energy Board (LSEB) across Epe and Badagry
- Gained fieldwork experience in energy assessment and resource documentation

Self-directed Frontend Developer *2022 – Present*
Independent, Lagos, Nigeria

- Built and deployed 20+ web projects independently, from landing pages to interactive apps
- Developed expertise in HTML, CSS, JavaScript, and Vue 3 through project-based learning
- Maintained a public GitHub portfolio (github.com/Aylong64) and a live portfolio site
